

Face Butter

Argan Oil & Shea Butter Blend

Small Batch | Organic | All Natural

The air-whipped texture instantly soaks in, leaving your skin deeply hydrated, supple, and soft. Improves skin firmness and hydration after just one use. Skin is noticeably smoother and softer, and the look of pores is diminished. For application, a little goes a long way, apply day and night to clean skin. Skin Types: we have formulated it for all skin types, especially for those that don't like a lot of vitamin e.

BY's Apitherapy only uses natural products that are designed using ingredients derived from plants, minerals, or other natural sources. These products often aim to be more sustainable and gentler on the environment and the body compared to synthetic alternatives. Using natural products offers numerous benefits, including being gentler on the skin, reducing exposure to harmful chemicals, and having a positive environmental impact. Natural products often contain beneficial nutrients and antioxidants, supporting skin health and well-being.

Argan Oil

Rich in antioxidants and fatty acids, argan oil deeply hydrates, nourishes, and protects the hair and scalp. With regular use, it seals cuticles and locks in moisture, leaving damaged hair healthier, shinier, and smoother.

Shea Butter

Offers numerous benefits for the skin due to its moisturizing, anti-inflammatory, and antioxidant properties. It can help hydrate dry skin, soothe irritation, reduce the appearance of scars and stretch marks, and even offer some protection against sun damage.

Soy Butter

Derived from soybeans, offers various benefits for skin health, including moisturizing, anti-aging, and skin-brightening effects. It's rich in vitamins, antioxidants, and essential fatty acids, contributing to improved skin hydration, elasticity, and overall appearance.

INGREDIENTS

Argan Oil,
Shea Butter,
Soy Butter

DIRECTIONS

Apply a small amount to clean skin, morning and night. The air-whipped texture absorbs instantly, leaving skin soft, smooth, and deeply hydrated. Suitable for all skin types—especially for those sensitive to vitamin E.
